

Welcome

Guardian Angel Home Care Agency Inc. is held in high esteem among its constituents in the health care field - it's because we make you our first priority. We can response to your home health needs in a short period of time. We understand the importance of spending quality time at home with a care giver rather than spending time in an over populated nursing home environment.

By scheduling an appointment, we can do an informal interview over the phone by gathering personal information. We will then make a home visit with the Nurse for an Assessment. You are now ready to meet your Home Care Provider. Call us with your questions at (704) 948-5654 - we are here to help.

About Us

We at Guardian Angel Home Care Agency, Inc. will provide health care related services to the sick, disabled, mentally and physically challenged individuals of any age who can benefit from such services.

Our employees are carefully screened for competence. We plan placements based on the employees' ability, skills and qualifications. We make sure that you end up with a caregiver or nurse who is able to suitably fulfill your care requirements while also ensuring your security at home.

If there is a disaster or emergency such as a severe storm or power failure, we have an emergency plan that will be implemented. When you are admitted to our care, we evaluate your situation and assign a risk priority level for services during an emergency.

Employees-In-Service
